

Surge Protector Instructions

1. Set the power switch into the "OFF" position. Plug the surge protector into a standard grounding wall receptacle by fully inserting the plug and ensure that there are no exposed conductors.
2. Make sure electronic equipment is turned off before plugging into the surge protector outlets. Do not use extension cords to connect equipment to the surge protector.
3. Set the power switch into the "ON" position. The surge protector will now be providing power and surge protection.
4. Connected equipment can now be turned on.

NOTE: Check the blue "Protected" and green "Grounded" indicator lights periodically. A glowing blue indicator light shows that surge protection is being provided. If the blue "Protected" indicator light stops glowing, the surge protective components have expired* and will no longer provide surge protection. In this event, the Connected Equipment Warranty is no longer valid and the surge protector should be replaced.

A glowing green indicator light shows that your surge protector is plugged into a grounded receptacle. If the "Grounded" indicator light stop glowing, it is possible the wall receptacle is no longer grounded. In this event, a qualified electrician should be consulted to ensure the wall receptacle is properly grounded.

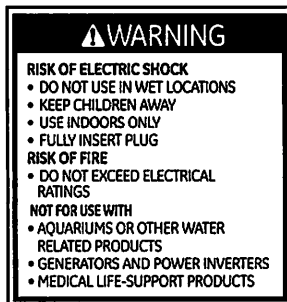

Surge Protector — Limited Lifetime Warranty

Jasco Products Company warrants this surge protector to be free of defects in workmanship and/or materials for the life* of the surge protector. If such a defect should arise during the life of the surge protector, Jasco Products Company will, at its option, either repair or replace the surge protector without charge. This warranty does not cover damage caused by lightning, accident, misuse, or alterations to the surge protector.

* This surge protector, like all surge protectors, has a finite lifespan. Even under normal circumstances and in the absence of defects, the product's life will expire when the surge protector's component capacity has been exceeded, thereby ceasing to provide protection from surges. In this event, the Limited Lifetime Warranty is no longer valid and the surge protector should be replaced.

Warranty replacement procedure

1. Call Jasco Products Company Customer Information Center at 1-800-654-8483 to get a Return Authorization Number (RA#), shipping instructions and a prepaid return address label.

2. After you have received the prepaid return address label, return the Jasco Products Company surge protector, freight prepaid, to Jasco Products Company. Surge protectors returned to Jasco Products Company must have an RA# included in the mailing address to be accepted.
3. The original purchaser will be asked to send the surge protector, a copy of the sales receipt for the product, your name, address, phone number and a description of the problem.

Connected Equipment Warranty Equipment Replacement Guarantee for Surge Model: 13475 Maximum Warranty Amount: \$200,000(USD)

NOTE: This device is not a lightning arrester, so it will not afford protection when lightning strikes nearby power line, the house, service entrance or antenna. The Warranty is void if a power disturbance damages your equipment through the coax, phone or network lines.

Jasco Products Company will pay up to the maximum warranty amount offered for the surge protector purchased to repair or replace up to an amount equal to the fair market value or the original purchase price, whichever is less, of your electronics equipment, if damaged by a transient surge (except those caused by direct lightning), within the life* of the surge protector, while properly and directly connected to this surge protector. JASCO PRODUCTS COMPANY DISCLAIMS AND ASSUMES NO LIABILITY FOR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOSS OR DAMAGE TO SOFTWARE OR DATA OR DAMAGES OR COSTS ASSOCIATED WITH BUSINESS INTERRUPTION OR OTHER DAMAGES DUE TO LOSS OR DAMAGE TO EQUIPMENT, SOFTWARE OR DATA. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that may vary from state to state.

This warranty is secondary to any existing coverage of any connected equipment, including but not limited to, any manufacturer's warranty, extended warranties, or insurance coverage.

To qualify for a connected equipment warranty:

1. All connected equipment must be UL and/or CSA approved.
2. The Jasco Products Company surge protector must be plugged into properly wired and grounded outlets, no extension cords, adapters, other ground wires, or electrical connectors may be used, with the sole exception of other standard Jasco Products Company 120 volt products approved for that use. The installation must comply with all applicable electrical and safety codes set forth pursuant to the National Electrical Code (NEC.)
3. Any claim under the warranty policy must be made within 15 days of the date of the alleged damage to the connected equipment.

For connected equipment coverage, the following conditions must be satisfied:

- A.) All equipment eligible for warranty coverage must be plugged directly into the Jasco Products Company surge protector. Equipment connected

- to the protected equipment, but not plugged directly into the surge protector will not be covered.
- B.) The equipment must have been damaged by a covered power disturbance that passed through the Jasco Products Company surge protector.
- C.) The Jasco Products Company surge protector must be damaged from the power disturbance.
- D.) The Jasco Products Company surge protector's protection capacity must not have been exceeded.

Connected equipment claim procedure:

1. Call Jasco Products Company Customer Information Center at 1-800-654-8483 to get a Return Authorization Number (RA#), shipping instructions and a prepaid return address label.
2. After you have received the prepaid return address label, return the Jasco Products Company surge protector, freight prepaid, to Jasco Products Company. Surge protectors returned to Jasco Products Company, Inc. must have an RA# included in the mailing address to be accepted.
3. Jasco Products Company will determine whether the damage to your equipment is covered by this warranty policy. If you are covered, a claims adjuster will contact you and Jasco Products Company will do one of the following at its own discretion:
 - a.) Authorize a service center to repair damaged equipment.
 - b.) Replace damaged equipment with equivalent or better.
 - c.) Reimburse customer the fair market value of the damaged equipment.
 - d.) Reimburse customer the initial purchase price of the damaged equipment (customer to provide dated bill of sale).
4. Jasco Products Company retains the right to determine whether the damage to the connected equipment is due to Jasco Products Company surge protector failure by requesting that damaged equipment be sent to Jasco Products Company for inspection.
